

WILL ALLOW ITAL AND JUGO-SLAVS TO FINISH NEGOTIATIONS

SUPREME COUNCIL HAS ADOPTED FRANCO-BRITISH DECLARATION REGARD TO GERMANY--NITTI OPPOSES MILITARY MEASURES.

San Remo, April 26.—(By the A. P.)—The council of premiers at the request of Premier Nitti of Italy and Foreign Minister Trumbitch of Jugo Slavia, will allow the Adriatic question to remain in negotiation between the Italian and Jugo Slav governments, it was learned today.

Reports that the Adriatic question, including the disposition of Fiume, would be settled by the San Remo council in accordance with President Wilson's program, appeared from San Remo last night to be at least premature. It was stated that the settlement proposed by Premier Nitti, although following generally the lines of President Wilson's note of December 9, varied from it by including a constitution for the buffer state of Fiume, to which both the French and British premiers objected, considering that it limited too largely the character of the new state. Both the French and the British delegations, it was understood, were of the opinion that Italy should either accept President Wilson's plan or abide by the pact of London, which gave Fiume to the Jugo Slavs.

The supreme council adopted the Franco-British declaration regarding Germany after inserting a clause declaring its readiness to take all measures, even the occupation of additional German territory if necessary, to assure the carrying out of the treaty of Versailles.

The adoption of this clause gave rise to some discussion, Premier Nitti of Italy opposing military measures. Premiers Millerand and Lloyd George, however, showed the Italian prime minister the necessity of considering such measures eventually, and forcing Minister Hymans of Belgium, and Baron Matsui, the Japanese ambassador, to France joined them in this point of view, which was adopted by the council.

Chicago, April 26.—Seven hundred robberies, whose loot is believed to total more than \$500,000, were cleared today when police examined the effects of Harry J. James, "talk man burglar," who was killed last night after shooting up the town hall police station, wounding two patrolmen.

In James' private warehouse, were truckloads of rare art works, oriental rugs, typewriters, adding machines, and dozens of other articles were found, police uncovered a card index in which the 700 robberies were listed, with the loot obtained.

Another section of the card file listed "prospects" and the wealth of data about each indicated that James had used an art inspector's card, found in his pocket, to gain entry to the houses.

A third file listed "gold coast" automobiles with description, license number, owner's name and "fair," "good" or "swell" to indicate the valuation.

Police also found ledgers listing loot sold with the price obtained and a list of pawnbrokers, with the type of goods each preferred to buy.

When James was killed he was found to be wearing a suit belonging to former United States Senator William Lorimer. The suit was one of 40 stolen from a tailor shop.

Clerk Frank P. Munich of the Naturalization office stated today that there are over 500 petitions on the docket for the May term. Of these about 500 are enemy aliens coming from Germany, Austria, Hungary or some province in enemy territory. Clerk Munich has not yet received notice from the Department of State to allow these petitions to be heard and does not expect he will receive any word until Congress takes some definite action on the peace treaty.

The board today continued its hearings on the wage demands of the brotherhoods. Timothy Shea vice president of the Brotherhood of Locomotive Firemen, told the board that additional pay for railroad workers would not have the effect of increasing the cost of living unless the excuse was seized upon by profiteers to exploit the public.

Labor is only a small item in the cost of production, Shea said. He declared that the labor bill on which new law for \$17 or \$18 a pair is only 83 cents.

MENT FEAR BLACK LIST

One of Driving Forces Steadily Breaking Strike.

New York, April 26.—Fear of a black list which would bar them permanently from employment appeared to be one of the driving forces today behind the steady breakup of the railway workers strike reported by railroad officials.

Although no hint of such a plan has come from the managers, possibility of its adoption was discussed freely by some strikers after they learned at a mass meeting last night that nine locals of the Brotherhood of Railroad Trainmen in the New York-New Jersey district had lost their union charters by action of Brotherhood officials. Some of the strikers predicted that the next act of the railroads which already deprived strikers of their seniority privileges will be an edict against re-employment of those still out. Officials of the lines continued today their optimistic statements of last week that traffic was fast returning to normal and that the effects of the strike soon would wholly disappear.

The predicted strike of engineers on the Lackawanna railroad failed to develop this morning, according to officials of the road, who stated that passenger service was normal and freight service improving hourly.

Alleging that the love of her chauffeur husband was alienated by his boss's wife, Florence Valentine of Norwalk is scheduled to appear before a jury in the Superior court on Wednesday morning, and testify in her suit against Freda Pollak. The wife asks for \$5,000 damages.

Mrs. Valentine alleges she was living happily as the wife of Frank Valentine until he entered the employ of Mrs. Pollak a few years ago. She claims the wife's blandishments of the defendant proved too much for Valentine to resist. The wife states that Valentine's affections were alienated and that she lost his love and society. He later abandoned her, the plaintiff declares. The defendant denies the wife's charges and intends to fight the case.

Rear Admiral Brittain was an ambitious, brilliant officer and an indefatigable worker and it is believed his illness brought his mental strain to the breaking point.

The hospital ship Solace, which is bringing Rear Admiral Brittain's body to the United States, is due to arrive in Washington on April 27. Ensign Thomas B. Brittain, son of the dead officer, who was with the fleet at the time of his father's death, is accompanying the body to Washington.

He stopped the car after striking the women, but proceeded on his way before his name and address was secured. Amint produced an honorable discharge from the army in court today, and charges against him were nolle because of his good military record. Mrs. Didwell was not seriously injured.

WIN SUIT AGAINST R. R.

Supreme Court Orders Coal Trust Dissolved.

Washington, April 26.—Federal and anti-trust dissolution suits against the Lehigh Valley and Reading railroads and affiliated coal companies in the so-called anthracite coal trust cases were decided today by the supreme court in favor of the government.

By a 4 to 3 vote, with Justices McReynolds and Brandeis not participating, the court ordered dissolution of the Reading combine.

Separate establishments of the Reading railroad, the Reading Coal Co., the Central Railroad of New Jersey and the latter's coal company and the Lehigh and Wilkesbarre Coal company was ordered by the court.

The court sustained the government's charges that the railroads violate the "interstate commerce" of the interstate commerce act. The Reading and Central of New Jersey railroads, the court decided, must dispose of stock ownership, respectively, of the Philadelphia & Reading Coal and Iron Company and the Lehigh & Wilkesbarre Coal Company.

Redistribution of the stock and bonds of the Reading and Lehigh Valley railroad companies and also of their respective coal companies was ordered by the court, which sustained the government's contention that common stock ownership, officers and directors constitutes a restraint of trade under the Sherman law.

Chief Justice White and Justices Holmes and Van Devanter dissented. In deciding in the Supreme Court today the government's anti-trust suit against the Lehigh Valley railroad and subsidiaries, the opinion was rendered by Justice Clark.

At the same time the court also decided the so-called "anthracite coal trust" case brought against the Reading Co. and subsidiaries charged with restraining trade in violation of the Sherman law in the Schuylkill coal fields.

LOST PIANO AND NEVER MISSED IT

While patrolling his beat along Railroad avenue about 10:30 o'clock this morning, Patrolman John Carroll of the Third precinct discovered a piano box lying in the road under the railroad tracks at the corner of Fairfield and Railroad avenues. The officer rushed across the road and gave a lusty tug at the box, intending to drag it off the street. The box refused to budge, however, and upon a closer investigation Carroll found that it contained one perfectly good upright piano. He telephoned the news of his find to the Third precinct station, and requested that somebody get busy and hunt up the owner of the instrument.

About 15 minutes later a large motor truck driven by a wildly excited man appeared under the viaduct. The driver inquired anxiously of the policeman whether he had seen any trace of a piano which he, the driver, had lost off his truck somewhere between Westport and the corner of Fairfield avenue and Main street. The officer set the man's mind at ease concerning the lost piano, and in a few moments more the man appeared and gave the driver a hand in reloading the instrument, which was not damaged by its fall.

CHICAGO STRIKE IS DEADLOCKED

Chicago, April 26.—Developments in the strike of insurgent railroad workers in the Chicago district today were confined to issuance of statements by the railroad managers and strikers. The managers said 1,892 men were at work yesterday and that freight traffic was 90 per cent. of normal. The strikers asserted the number of men the railroads said were at work was less than one-fifth the normal number, that the industrial situation rapidly was growing worse, with a number of plants facing shutdowns because of lack of coal and that because the railroads said not continue using high priced men as substitute switchmen, a compromise would be forced sooner or later. Elsewhere in the central and far west a gradual return to normal freight movement was reported.

On that occasion he issued an appeal to British labor.

EXPECT IMPORTANT DEVELOPMENTS IN CRUSADE TOMORROW

CASES OF 27 PRISONERS TAKEN IN RAIDS OF APRIL 17 TO COME UP IN CITY COURT —"UNDISCLOSED" WITNESSES MAY BE PRODUCED.

New developments of utmost importance in Bridgeport's vice crusade are expected tomorrow, when the cases of 27 prisoners who were taken in the raids of April 17 will be heard in the City court. With the arrest of Angelo Ballister, in Shelton, the authorities believe they have taken the last man who may be implicated in the alleged "vice trust" here.

Now that the round-up has been completed, it is expected that the Burns operatives will produce their "undisclosed" witnesses, and attempt to prove the charges which they have made.

Among the 27 cases assigned for trial tomorrow are those of Joseph Villa, of 372 State street, charged with keeping a disorderly house; Marian Wilson, charged with frequenting a disorderly house; Frank Ballister, charged with keeping a disorderly house; and others. The 17-year-old girl who is believed to be the star witness for the Burns men. It is reported that this woman will tell her story tomorrow morning, and her evidence will implicate a number of persons who are now being held.

Of the 157 prisoners who were in court last Monday morning as the result of the Burns raid, only 37 are yet to be heard. Nineteen of these are frequenters of gambling houses, and the others are charged with being keepers of establishments. During the past week 80 cases were nolle, and bonds were forfeited in 40 instances. Most of the cases disposed of were those of persons who were taken as frequenters of various resorts. Attorneys representing the principals in the various cases have

not yet been given an opportunity to present their cases in court, and no Burns men have as yet taken the witness stand. Tomorrow, however, is expected to bring forth some action along these lines.

Mayor Clifford B. Wilson was in the City court again this morning, and remained throughout the entire session despite the fact that no raid cases were slated for trial. No Burns men were seen in the court room or about police headquarters.

It became known today that more than 100 women who were frightened out of New York a short time ago by the commencement of a clean-up in that city, landed in Bridgeport but were ordered out of town immediately by the local police. It is said that not one of these women remains in this city at the present time.

For this excellent piece of work the police department gives credit to Captain Peter H. Hall, who was recently in command of the First precinct. It is reported that Captain Hall ordered his men to apprehend all of the women in question and command them to clear out of town. The captain's orders were rigidly enforced with the result that the women made only a very short stay in Bridgeport. It was also reported today, that immediately after his appointment as captain, Hall completed a list of undesirable persons and houses in the First precinct, and submitted this list to Mayor Clifford B. Wilson. Upon the orders of the police commissioners, Captain Hall was transferred last week from the First to the Third precinct. His position at police headquarters has been filled by Captain John O'Connell.

Feeling in favor of the return of Superintendent John H. Redgate continues to make itself evident in police circles. Although the policemen are reluctant to discuss the situation freely, the general consensus of opinion is that they feel Superintendent Redgate should be returned to duty without delay, or given a hearing and a chance to defend himself against any charges which may be brought against him.

Paris Faces Complete Paralysis Of Business

Paris, April 26.—This city faces an almost complete paralysis of business on Saturday, May 1, as the result of a large number of unions voting to join the labor demonstration by calling a general strike. Hotels, post offices, telephones, local surface transportation, gas and electrical works, all unionized workers on the payrolls of the municipality with the exception of health officers, and a large number of less important branches of labor will participate in the strike. Work in most lines will be resumed after 24 hours but the walkout of telephone and telegraph employees will interrupt communication.

Teachers will remain on duty and food stores will be open, at least part of the day. Decision of the congress of French railway workers to call a strike to enforce demands threatens a new danger, if the men lay down their tools before Saturday.

Whether the finish fight for immediate complete nationalization of the railways and compliance with their other demands is brought on by the railwaymen, however, now appears to depend upon the co-operation of the general confederation of labor, which is not considered as anxious for a general movement as the new extremist majority of the railroad men. It is pointed out that this group comprises little more than half of the railroad organization membership of \$30,000.

The government's policy, either a discussion about the high cost of living, Dr. Charles E. Nary, dentist, 54 seized a paring knife at his home here today, cut the throat of his wife Grace, 40, inflicted superficial wounds on his sister-in-law, Mrs. M. H. Fontenot, Carlinville, Ill., and cut his own throat. Nary died within a few minutes. Mrs. Nary, physicians say, cannot survive.

Police reports were that Nary flew into a rage when his wife pleaded for an increased household allowance.
